FRONTEND WEB DEVELOPER

Results-driven Frontend Web Developer with over 4 years of experience with proven expertise in building scalable, user-centric applications using modern frameworks like Next.js, Vue.js, and React. I successfully spearheaded the development of a full-stack web system at Phos Consults, utilizing React.js and Contentful CMS with a simple PHP backend, which boosted lead generation by 40% through intuitive design and AI-powered features. I am skilled in translating complex API integrations into seamless user experiences, bridging the gap between back-end functionality and impactful front-end design. Eager to leverage my strong background in responsive design, state management, and back-end integration to create transformative digital solutions.

SKILLS

SOFT SKILLS	HARD SKILLS
Problem-Solving & Analytical Thinking	JavaScript/TypeScript (ES6+)
Adaptability & Continuous Learning	Next.js, React & Vue
Collaboration & Communication	State Management (Vuex/Pinia, Redux/Zustand/Context API)
Attention to Detail & User-Centric Design	Version Control (Git & GitHub)
Time Management & Project Ownership	API Integration (RESTful & GraphQL)
Proactiveness & Initiative	Performance Optimization (Web Vitals)
Teamwork & Interpersonal Skills	SEO Optimization, TailwindCss & Figma

WORK HISTORY

April 2023 – Present

PHOS CONSULTS IBADAN, OYO STATE

FULLSTACK WEB DEVELOPER & LEAD IT MANAGER

Overview: As the **Lead IT Manager** and **Full-Stack Developer**, I spearheaded the development and maintenance of Phos Consults' core web presence and managed IT operations, focusing on building **scalable, user-centric** web systems. My work leveraged **React.js**, **Contentful CMS**, and **React Query** for a dynamic and fast frontend experience, integrated with a secure **PHP backend** to handle critical form submissions and file uploads.

Roles and Responsibilities

- Led the design and development of a scalable, user-centric frontend for the company's core web systems using React.js and React Query.
- Managed the integration and deployment of **Contentful CMS** to enable dynamic content delivery and maintain high content velocity.
- Developed and deployed key frontend features like intuitive booking forms to maximize user engagement and lead capture.

- Maintained the supporting technical infrastructure, including managing the simple PHP backend for secure form submissions and file uploads, and ensured system reliability.
- Acted as the Lead IT Manager, providing technical direction, solving deployment issues (cPanel knowledge), CI/CD and ensuring server uptime by at least 90%.

Achievements:

- Boosted Lead Generation by 40% by designing and implementing intuitive booking forms and integrating AI-powered chat features on the frontend.
- Managed the end-to-end development life cycle, from conceptual design to deployment, ensuring a seamless digital experience that turned one-time consultations into lasting partnerships.
- Oversaw IT strategy and maintained the technical infrastructure, ensuring system reliability and performance.
- Demonstrated expertise in breaking down complex technical concepts for stakeholders, ensuring technology solutions were accessible and impactful.

Aug. 2025 – Sept. 2025 **NEXT SWITCH LTD. | IBADAN, OYO STATE, NIGERIA**
FRONTEND WEB DEVELOPER (SIWES INTERNSHIP)

Overview: As a Frontend Web Developer during my SIWES internship at Next Switch Ltd., I was responsible for the end-to-end development and deployment of user-facing interfaces for fintech platforms. I utilized Vue.js and Tailwind CSS to build highly responsive and secure frontends for applications like MyRiteWallet and Dgnravepay. I successfully implemented Laravel blade template engine to develop the frontend for backend integration and honed my full-stack skills by resolving complex cPanel deployment issues. Additionally, I contributed to knowledge sharing by mentoring students in foundational web technologies like HTML and Node.js.

Roles and Responsibilities

- Developed and deployed responsive and secure user interfaces for fintech platforms such as MyRiteWallet and Dgnravepay using Vue.js and Tailwind CSS.
- Successfully resolved critical **cPanel deployment issues**, demonstrating practical full-stack deployment and problem-solving skills.
- Adhered to industry best practices in frontend development, ensuring maintainable code, responsiveness and optimal performance for financial applications.

Achievements:

- Engineered and deployed two high-fidelity, secure fintech websites, MyRiteWallet and Dgnravepay, leveraging Vue.js and Tailwind CSS, demonstrating expertise in responsive, enterprise-grade frontend development.
- Successfully resolved critical cPanel deployment issues for client applications, ensuring at least 90% operational uptime.

- Contributed to team growth by actively mentoring peers in foundational web development concepts (HTML, Node.js), fostering a collaborative learning environment.

EDUCATION & CERTIFICATION

2021 – Present (In View)

FEDERAL UNIVERSITY OYE-EKITI, EKITI STATE

Bachelor of Applied Science – B.ASc, Computer Science
